Reactome pathway enrichment
Syndecan interactions
Signaling by PDGF
Peptide chain elongation
Nonsense Mediated Decay Independent of the Exon Junction Complex
Non−integrin membrane−ECM interactions
NCAM signaling for neurite out−growth
NCAM1 interactions
Laminin interactions
Integrin cell surface interactions
Extracellular matrix organization
Eukaryotic Translation Termination
Eukaryotic Translation Elongation
ECM proteoglycans
Developmental Biology
Degradation of the extracellular matrix
Collagen formation
Collagen degradation
Collagen biosynthesis and modifying enzymes
Axon guidance
Assembly of collagen fibrils and other multimeric structures
