## Enri

transcription regulatory region sequence-specific DNA bindir

transcription regulatory region DNA bindir transcription factor bindir

sequence-specific DNA binding transcription factor activity

nscription regulatory region sequence–specific DNA binding transcription factor activity involved in positive regulation of transcription

re promoter proximal region sequence-specific DNA binding transcription factor activity involved in positive regulation of transcription

nucleic acid binding transcription factor activity

sequence-specific DNA bindir

regulatory region DNA bindir protein dimerization activi

organic cyclic compound bindir

heterocyclic compound bindir

protein bindir oxygen bindir

molecular function identical protein bindir

growth factor bindir

bindir

regulatory region nucleic acid bindir

RNA polymerase II core promoter proximal region sequence-specific DNA binding transcription factor activi
